

Servicing the ThinkSystem SN550

ES71741

July 2017

Prerequisites

- ES41758 - ThinkSystem servers architecture introduction
<https://lenovoedu.lenovo.com/course/view.php?idnumber=ES41758>
- ES51757 - Introducing ThinkSystem tools
<https://lenovoedu.lenovo.com/course/view.php?idnumber=ES51757>
- ES41759 - ThinkSystem problem determination
<https://lenovoedu.lenovo.com/course/view.php?idnumber=ES41759>
- ES51780 - Servicing the ThinkSystem storage controllers
<https://lenovoedu.lenovo.com/course/view.php?idnumber=ES51780>

Objectives

After completing the course, you will be able to:

- Describe the Lenovo ThinkSystem SN550 MT 7X16 server and components.
- List the Lenovo ThinkSystem SN550 MT 7X16 server features and specifications.
- List the Lenovo ThinkSystem SN550 MT 7X16 server configurations and diagrams.

Product description, front, rear, inside view, and component list

ThinkSystem SN550 product overview

The Lenovo Flex System SN550 Compute Node (MT 7X16) is a high-performance server that offers enhanced security, efficiency, and reliability features to handle business-critical workloads. The blade server incorporates up to two Intel Xeon Processor Scalable Family of processors. The processors feature up to 28 cores each and use Lenovo TruDDR4 memory, which runs at speeds up to 2666 MHz.

Suggested uses: database, virtualization, enterprise applications, collaboration and e-mail, streaming media, Web, HPC, and cloud applications.

Index	Description
1	Compute node cover
2	Processor heat sink filler
3	I/O expansion adapter
4	Trusted cryptographic module
5	Air baffle
6	Fabric connector
7	Memory module
8	Drive bay filler
9	2.5-inch drive
10	Storage cage
11	2.5-inch drive backplane
12	Processor 2, heat sink, and clip assembly
13	Processor 1, heat sink, and clip assembly
14	System board
